To: Syed Rafiqul Alam <rafiq82041@gmail.com>

Cc: Project Director <gaziur60@gmail.com>, "MD. Rezaul Karim Sheikh" <dpd@mfsp.gov.bd>, Procurement Analyst <indrojitm@yahoo.co.uk>, Thibaut GIROUX <tgiroux@gerico.fr>

Dear Mr Rafiqul,

1 – Nitrogen system : As discussed during the prebid meeting, we gave the achievement and specification(characteristics, all-inclusive system, draw time, product datas, flow capacity of product...) the system must bring to. There is no more technical specification to be given on that point as every supplier has its own system. For example one supplier can comply with 1 generator where another supplier can comply with 2 generators or more. Principle design was also given (see ie A350 - 4 - ME - 5 – 0004), drawing which gives the location of material, accessories...

2- Mixer : Complete technical specification had been given together with others equipment's specification. Please refer to it.

Thank you,

Best regards

Renaud VAHE
